

————— TAPESTRY ACRES —————

— a note from the farm —

Why a Dry Lot?

WHAT'S A DRY LOT?

*A paddock without grass —
just dirt, sand, and a hay feeder.*

GRASS = CANDY

*For minis, grazing all day
is like eating candy nonstop!*

EASY KEEPERS

*Mini horses gain weight fast —
even on a little grass!*

DOCTOR'S ORDERS

*Vets recommend dry lots
for small horses like Penelope.*

WHY NO GRASS?

*Fresh grass has lots of sugar —
too much for mini horses!*

SORE HOOVES

*Too much sugar can cause founder —
a painful hoof disease.*

STILL HAPPY!

*They get hay, friends,
and plenty of room to play.*

LOVING CARE

*A bare lot looks plain — but it
means a longer, healthier life!*
